Public Workshop Meeting Description:

Public Workshop Meetings will be held for each of the Brookhaven Parks that are included in the Site Specific Park Plans project. The workshop format will allow Community Members to review the initial park site base map, ask questions and offer suggestions for proposed park improvements and desired amenities. Comments received will be documented in summary format.

For those who are unable to attend the individually scheduled public workshop park meetings, a general park comments meeting has been scheduled for September 19, 2015 from 10:00 am – 1:00 pm at the Lynwood Community Center for the purpose of receiving additional Community Member input.
